# Resume

SharePoint Developer | Office 365 consultant | + 1 year (+13 years of IT Dev)

Microsoft Office | SharePoint | Office 365 | Cloud | .Net| | SharePoint and associated technologies|

Personal details

Last name	Piette
Christian names	Mathieu
Date of birth	16/05/1978
Driver's license	B
Nationality	Belgian
Residence	Bray, Belgium
Contact	+32 477 53 04 39 / mpiette@intermade.be
Characteristics	Goals and service oriented	Pro active
Roles and Position	SharePoint/ Office 365 Developer	.Net Developer
LinkedIn Profile	https://www.linkedin.com/in/mathieu-piette

On request an interview with a reference can be scheduled.

Profile

More than one (1) year professional experience in SharePoint gained at Sonaca Gosselies as Analyst/Developer consultant.

10 years professional experience in the ICT gained at AUBAY as consultant Software Engineer that allowed me to evolve with various programming languages and on various platforms (Microsoft/Linux). Here are my main achievements:

8 years at Alcatel-Lucent Namur with complex C/C++/Oracle platform including reusable component SOA and web-services, with role of end-to-end Software Engineer on customer projects: design of specification, architecture, code, test, validation, support, integration, installation on client side with structured design.

My .NET experience: can be considered as up 4 year full-time equivalent with:
- C#.NET 2.0 for interface/integration gained at Alcatel-Lucent for customer development project (2007-2010).
- C# and VB .NET 3.5/.NET4.0 framework experience with C#, ADO.NET and WinForms WCF, Entity Framework and LINQ-to-SQL WPF, LINQ-to-Entity

1 year at NGK Ceramics Europe as system administrator and helpdesk/maintenance responsible for the whole IT domain.

Specialties and Technical Transcript

- SharePoint 2013, 2016
- Office 365
- C, C++, C#
- .Net (Up to Framework 4.5
- HTML, JavaScript/JQuery, CSS, XML

Informative and Process Management

- Collaboration
- Life cycle Management
- Document Management

Work experience

10-2017 – Currently: Finance Sector

Project	:	SharePoint 2016 Analyst/Developer
Dates	:	From 10/2017 to Currently
Customer	:	Finance Sector
Responsibility	:	Analyst-Developer
Tasks	:	Migration of a Financial application: from Access to SharePoint 2016. Development principles:

- Client-side development > Forms and Views using state HTML and Javascript/Jquery
- Data modeling using SharePoint Lists and External SQL DB's
- Data Access through REST API and Webservices
- Web Services in .Net from Access VBA Code (migration of code)
- SQL Server Stored Procedures
- OpenXML Word API to manipulate word documents (created on the fly from .Net, converted to PDF and stored into SharePoint)

Technical environment	:	Microsoft SharePoint 2016, HTML5, JavaScript/JQuery, JSON, REST, Access, .Net

08-2016 – 09-2017: SONACA (Gosselies)

Project	:	SharePoint Quality Business Site
Dates	:	From 03/2017 to Currently
Customer	:	SONACA
Responsibility	:	Analyst-Developer
Tasks	:	• Design and development of new search display templates in SharePoint 2013.
Technical environment	:	Microsoft SharePoint 2013, HTML5, Javascript, JQuery, Json, KQL, XML/CAMLQuery

Project	:	SharePoint Quality Business Site
Dates	:	From 02/2017 to 03/2017
Customer	:	SONACA
Responsibility	:	Analyst-Developer

Tasks	:	• Design and development of new business website for Quality dept within SharePoint.
Technical environment	:	Microsoft SharePoint 2013, HTML5, Javascript, JQuery, Json, KQL, XML/CAMLQuery

Project	:	Traçabilité Peintures ASSY (VB.NET)
Dates	:	From 12/2016 to 02/2017
Customer	:	SONACA
Responsibility	:	Analyst-Developer
Tasks	:	• Current solution bug correction • New requirements analysis • Actual solution bugs correction • Development of new requirements • Tests of new solution
Technical environment	:	Microsoft Windows 7, Visual Studio 2012, VB .Net, .Net Framework 4.0

Project	:	SharePoint Display Template Design
Dates	:	From 11/2016 to 12/2016
Customer	:	SONACA
Responsibility	:	Analyst-Developer
Tasks	:	• Design and development of new Control Templates and Display Template to be used in search webpages of Sonaca websites.
Technical environment	:	Microsoft SharePoint 2013, HTML5, Javascript, JQuery, Json, XML/CAMLQuery

Project	:	Serv-IT Webforms (SharePoint/Omnitracker integrated)
Dates	:	From 10/2016 to 11/2016
Customer	:	SONACA
Responsibility	:	Analyst-Developer
Tasks	:	• 20 new HTML forms for various purposes with SharePoint data integration and Omnitracker mail sending • New SharePoint Lists creation for forms data access • New SharePoint document libraries creation for file uploads from HTLM forms • Tests of new forms

Technical environment	:	Microsoft SharePoint 2013, HTML5, Javascript, JQuery, XML/CAMLQuery

Project	:	Migration MMDB+PVCE vers DAD MSN5 (Contrat Airbus)
Dates	:	From 09/2016 to 10/2016
Customer	:	SONACA
Responsibility	:	Analyst-Developer
Tasks	:	• New requirements analysis for new format external report • Actual solution bugs correction • Development of new solution • Tests of new solution
Technical environment	:	Microsoft Windows 7, Microsoft ACCESS 2010, VB .Net

Project	:	Solog Traçabilité Matières (Interface Adaptation)
Dates	:	From 08/2016 to 09/2016
Customer	:	SONACA
Responsibility	:	Analyst-Developer
Tasks	:	• New requirements analysis • Actual solution bugs correction • Development of new requirements • Tests of new solution
Technical environment	:	Microsoft Windows 7, Microsoft Excel 2010, VB .Net

05-2015 – 06-2016: NGK Ceramics Europe.

Project	:	System Engineering Section
Dates	:	From 05-2015 to 06/2016
Customer	:	NGK Ceramics Europe
Responsibility	:	System and network administrator, support/maintenance responsible

Tasks	:	• Active Directory management for NGK domain
		• New production projects responsible for IT part.
		• Verification of the backup processes
		• Disk space management on servers
		• Backup management of production data
		• Whole infrastructure monitoring with Nagios
		• Anti-virus/Anti-spam/Proxy systems management
		• Monitoring with Nagios and centreon
		• Responsible of hardware and software reliability with spare parts management
		• VMware vSphere virtual environment
Technical environment	:	Microsoft 2003, 2008 and 2012 servers
		VMware vSphere
		Windows XP ,Windows 7, Windows 8 workstations
		Juniper routers

08-2004 – 01-2015: Aubay.Promotic S.A.

Project	:	APPLI-RECRUT
Dates	:	From 04-2014 to 01-2015
Customer	:	Internal AUBAY project
Responsibility	:	C# / .NET Framework developer
Tasks	:	• Maintenance and debugging of the .NET application
		• Maintenance of the SQL Server DB of the .NET project
Technical environment	:	Windows environment: .NET 4.0 Framework (C#, Entity Framework, WCF, WPF, LINQ-to-Entity) SQL Server

Project	:	Autosurf Optimization
Dates	:	From 03/2014 to 04/2014
Customer	:	Sonaca
Responsibility	:	C# / .NET Framework developer
Tasks	:	Code adaptation to make the software compatible with Internet Explorer 8 and 11.

Technical environment	:	Windows environment: .NET 2.0 Framework (C#,HTML Elements)

Project	:	APPLI-RECRUT
Dates	:	From 09-2013 to 03/2014
Customer	:	Internal AUBAY project
Responsibility	:	C# / .NET Framework developer
Tasks	:	• Developing the .NET interface of the project, it is an Aubay internal CV management application • Managing the SQL Server DB of the .NET project
Technical environment	:	Windows environment: .NET 4.0 Framework (C#, Entity Framework, WCF, WPF, LINQ-to-Entity) SQL Server

Project	:	CATIA Optimization
Dates	:	From 11-2012 to 01/2013 plus several short missions along 2013
Customer	:	SONACA
Responsibility	:	Team member for the CAD team turning non-standard CATIA into standard solution for the related programs of aircraft component design (one program per customer)
Tasks	:	• Several small projects development with .NET at request • Most important one concerns the revamping of CATIA user access management turned into .NET3.5 solution Several .NET intervention for maintenance & evolution along 2013
Technical environment	:	• Windows environment / .NET 3.5 Framework (C#, EF, WCF) Unix environment / C++ Shell SQL (interface with CATIA and VPM)

Project	:	Several internal projects at Aubay.promotic
Dates	:	From 07-2012 to 12-2013 & shared time with SONACA in 2013
Customer	:	AUBAY LUX
Responsibility	:	C# / .NET Framework learning with practice

Tasks	:	• Several POC to update .NET in 2012: gained experience in C# and ASP.NET with .NET 2.0 Framework and then .NET 3.5 Framework
		• Acquisition of tools: XML and Linq, Linq to SQL, ADO.NET, EF, Linq over datasets, GDI+, WWF, WCF, WPF
		• Project in 2012: application hosting some of the above techniques and using a WPF application through a WCF service.
		• Project in 2013: HR Application in 3Tier, using .NET technologies for scalable, performing, easy to deploy content repository with advanced text retrieval function (metadata, full text, indexing connector). Creation of WCF/WPF services and SOLR integration, creation of SQL index with SQL server 2008
Technical environment	:	Windows environment: .NET3.5 Framework (C#, WCF, WPF), SQL2008, IIS, ADO.NET Entity framework with LINQ-to-entities

Project	:	iTec FBI Team (Alcatel-Lucent)
Dates	:	From 01-2012 to 07-2012
Customer	:	Alcatel-Lucent
Responsibility	:	Support and maintenance of the entire Alcatel platform OSP running on for all the customers around the world.
Tasks	:	Infrastructure support and maintenance
Technical environment	:	✓ Alcatel OSP 2.4 and OSP 2.3 on HP /Sun Server & Oracle
		✓ Shell/Unix & SQL/Oracle (fault tracking & correction)

Project	:	iTec ICC Team (Alcatel-Lucent)
Dates	:	From 10-2010 to 01-2012
Customer	:	Alcatel-Lucent
Responsibility	:	Support and maintenance of all the software running on Alcatel platform for all the customers around the world.
Tasks	:	▪ Service Support and maintenance
Technical environment	:	✓ Alcatel OSP 2.4 and OSP 2.3 (ICC, IN, OSP, Opzone)
		✓ LiteSCE (proprietary script) (fault tracking & correction)

Project	:	PTC CIN Project (Poland) (Alcatel-Lucent)
Dates	:	From 01-2010 to 10-2010
Customer	:	Alcatel-Lucent
Responsibility	:	Developer

Tasks	:	• Service implementation of NTR module (Number Translation and Routing) for NGIN (New Generation Intelligent Network), including:
		▪ Database object design
		▪ Transient objects design (for module internal use)
		▪ Access and management methods design and development in C++, integration/interface in C#
		▪ Script design and development
		▪ Unitary testing of complete module for delivery
Technical environment	:	✓ Alcatel OSP 2.4 on Sun Server & SunOS 5.10 sparc
		✓ JDK1.5 & 1.6, C++ and C# (.NET2) plus some PL/SQL procedures

Project	:	T-Mobile Rating Enabler Project(Alcatel-Lucent)
Dates	:	From 01-2008 to 01-2010
Customer	:	Alcatel-Lucent
Responsibility	:	Developer
Tasks	:	• Architecture Design for Prepaid Solution in order to interface the Rating Engine 3.1 (Real Time Rating and billing service) with T-System solution.
		• Service implementation for multi-purposes Notification sending (using SOAP encapsulation) and buffering mechanism.
		• SOAP/XML APIs interacting with billing engine, available via Web Services provided by Rating Enabler to serve online queries from CSM, MTM, SMS and IVR. Information formatted with XSL Stylesheets.
		• Reporting scripts suite, including Shell/Perl scripts, with formatting of structured oracle reports and PL/SQL procedures, interface/integration with C#.

Technical environment	:	✓ Alcatel OSP 2.4 on Sun Server & SunOS 5.10 sparc
		✓ JDK1.5 & 1.6, SOAP/XML API, Shell/Perl and some PL/SQL and C#

Project	:	BASE Greenfield Project(Alcatel-Lucent)
Dates	:	From 10-2007 to 01-2008
Customer	:	Alcatel Bell Namur
Responsibility	:	Developer
Tasks	:	• Architecture Design for Prepaid Solution for USSD, SMS and IVR Modules to interface with Rating Engine 3.1 (Real Time Rating and billing service)
Technical environment	:	✓ Alcatel OSP 2.4 on Sun Server ✓ JDK1.5 & 1.6 and C++ plus Shell/Perl and some PL/SQL and C#

Project	:	O2 Ireland Phase 2A(Alcatel-Lucent)
Dates	:	From 06-2007 to 10-2007
Customer	:	Alcatel Bell Namur
Responsibility	:	Tester and Debugger
Tasks	:	Integration Tests and debugging on site in Dublin for 1 month • Rating Engine 2.5.1 (Real Time Rating and billing service) • Charging Gateway integration with customer middleware • Audit Tool • Stability and load tests Patches installation for Rating Engine 2.5.1 maintenance
Technical environment	:	✓ Alcatel OSP 2.3 on Sun Server (SunOS 5.8) ✓ Test of C++ components
Project	:	O2 Germany Customer Value Booster Project (Alcatel-Lucent)
Dates	:	From 09-2006 to 06-2007
Customer	:	Alcatel Bell Namur
Responsibility	:	Developer
Tasks	:	✓ Design, Development and Testing on site in Munich: • Rating Engine 1.7 (Real Time Rating and billing service) • OCG Gateway Service ✓ Stability and Load testing of the solution on site in Stuttgart and remotely
Technical environment	:	✓ Alcatel OSP 2.3 on Sun Server (SunOS 5.8) ✓ C++ and Shell/Perl

Project	:	H3G Italia (Alcatel-Lucent)
Dates	:	From 12-2005 to 09-2006
Customer	:	Alcatel Bell Namur
Responsibility	:	Developer
Tasks	:	✓ SDPVPN Database migration to a partitioned version of the service: • Perl scripts used to process and migrate the data, SQL Load… • Integration on site in Rome for 3 weeks.
Technical environment	:	✓ Alcatel OSP 2.3 on Compaq Server & DEC Unix ✓ C++ and Shell/Perl

Project	:	H3G Austria (Alcatel-Lucent)
Dates	:	From 06-2005 to 02-2006
Customer	:	Alcatel Bell Namur
Responsibility	:	Support and Maintenance
Tasks	:	Support and Maintenance • Rating Engine 1.4 (Real Time Rating and billing service) • Real Time Call Control
Technical environment	:	✓ Alcatel OSP 2.3 on Compaq Server ✓ Unix Operating System

Project	:	Tele.ring Austria and H3G Sweden/Denmark (Alcatel-Lucent)
Dates	:	From 08-2004 to 08-2005
Customer	:	Alcatel Bell Namur
Responsibility	:	Developer

Tasks	:	✓ Development and Support

- Rating Engine 1.4 (Real Time Rating and billing service)
  - Patches installation
  - LiteSCE customization
- Real Time Call Control
  - Service adapted to comply with customer requirement
- Customer Care Web Interface
  - Design of new features (XML, XSL, JavaScript)
  - Service adapted to comply with customer requirement
- USSD and IVR service
  - Implementation of new Invoice features and new kind of SMS notifications
  - Services adapted to comply with customer requirement

✓ Integration of the H3G Sweden/Denmark Part in Stockholm

Technical environment	:	✓ Alcatel OSP 2.3 on Compaq Server
		✓ Unix Operating System

Education

2017	**SharePoint 2013 : Avancé**	
	Cefora **Bruxelles**	
2007	**Porting OSP 2.3 to OSP 2.4**	
	Alcatel University **Namur**	
2007	**Training OSP 2.4**	
	Alcatel University **Namur**	
2004	**Training OSP 2.3**	
	Alcatel University **Namur**	
2001-2004	Bachelor of Higher Education in business study and computing, HEPMBC (ISE) Mons June 2004. End-study internship at IDLINK with project in DELPHI 7	
2000 - 2001	Military service in Italy as corporal 1st class.	
1999	Further school in office automation in ISFCF Binche. Evening classes in English and Italian.	
1998	Evening classes in electronics, ISIC.	
1997	First year in Biology at the UMH University.	
1991-1996	CESS St Luc Mons. Comprehensive school.
